📄 PROFILE

I'm a full-stack engineer with a focus on backend development and proficient frontend skills. My passion lies in crafting complex yet durable web applications.

I love to inspire teams and to consistently pave a project's path to long-term success.

📁 PROFESSIONAL EXPERIENCE

Self-Employment (ASTEIO IT-Solutions)

01/2024 – present | Full-Stack Freelancer & Consultant
TypeScript, Bun, Rust, Qwik, VueJS, Tailwind CSS, Vitest, ...

Consulting, training, conception, design and engineering of web and mobile applications based on customer needs. Proficient with a multitude of frameworks and languages. Always enthusiastic and passionate.

Mantra: Achieve steady technology optimization; ASTEIO

Sartorius AG

11/2022 – 07/2023 | Embedded Backend Engineer
TypeScript, Node.js, Lit, RxJS, C++, SQLite, Vitest, ...

Embedded firmware engineering for laboratory devices. Focus on embedded device restrictions, backend engineering and code optimization.

FLAVIA IT-Management GmbH

01/2022 – 10/2022 | Frontend Engineer & Lead Architect
TypeScript, VueJS, Java, Bootstrap, Jest, ...

Backoffice web application for work logging & analysis. Lead architect role and frontend engineer.

BASF SE

04/2020 – 12/2021 | CMS Full-Stack Engineer & Architect
AEM, TypeScript, Vanilla JS, VueJS, Jest, Selenium, ...

AEM (Adobe Experience Manager, CMS) component development and architecture consulting. Focus on Accessibility and UI / UX. Chemical Industry.

Grid & Co. GmbH

01/2019 – 03/2020 | Full-Stack Engineer
TypeScript, Java, Angular, Material UI, React Native, Jest, Cypress, ...

Backoffice web and mobile applications for e-mobility. I worked mainly in frontend with occasional drifts to the backend and E2E testing on demand.

FLAVIA IT-Management GmbH

01/2019 – 10/2023 | Full-Stack Engineer & Other Roles
TypeScript, Java, Angular, Vue, React Native, ...

Medium-sized agency. Overarching focus: Knowledge transfer, Mentoring & Agile Processes.

I've been assigned multiple projects for different customers, ranging across the topics of e-mobility, chemical industry, backoffice applications, mobile development and embedded

🏠 EDUCATION

Georg-August-Universität Göttingen

10/2012 – 09/2018

Applied Computer Science: Applied
System Engineering

Degree: Bachelor of Science (BSc.)

💡 SKILL OVERVIEW

Backend Engineering ●●●●●

*Designing, developing and testing of
backend software systems*

Frontend Engineering ●●●●●

*Designing, developing and testing of
web and mobile user interfaces*

Project Architecture ●●●●●

*Planning and consulting for software
design and architecture*

Teamwork ●●●●●

*Collaborative and agile structures for
efficiency and long-term success*

devices. Differently sized teams and multiple roles, including Frontend Engineer, Full-Stack Engineer, DevOp and Lead Architect. See projects listed above.

PainPoint Solutions UG

10/2014 – 10/2017 | Full-Stack Developer & Architect

Java, StrongLoop (Node.js), Angular.js, PostgreSQL, Redis, ...

Part-time employment (startup), full-stack web development and architecture consultant.

🗣️ LANGUAGES

German ●●●●●

English ●●●●●

🔧 SKILL SET

Software Development

JavaScript / TypeScript / NodeJS / Bun / VueJS / Nuxt /
Tailwind CSS / Angular / React / Svelte / HTML5 / CSS3 /
Sass / JSX & TSX / Lodash / RxJS

Kotlin / Java / Spring / Rust / Python / C++ / Bash

React Native / Flutter / Kotlin Multiplatform

Testing (E2E, Integration, Unit) / Vitest / Jest / Cypress /
Selenium

RDBs / SQL / NoSQL / PostgreSQL / SQLite / MySQL / Redis /
MongoDB

Server-Side Rendering (SSR) / Static Site Generation (SSG) /
Server-Side Pre-Rendering / Client-Side Rendering / Single-
Page-Application (SPA)

Computers & Tooling

Linux / UNIX / NPM / Git / Docker / Kubernetes / RESTful APIs
/ GraphQL

IntelliJ / Bamboo / Jenkins / Gerrit / JIRA / CI & CD

Vite / Webpack / Maven / Gradle / Makefile / AWS

Scrum / Kanban / Agile Workflows / Git Flow

Social

Capable of Teamwork / Code Reviewing / Self-Assessment /
Sense of Responsibility / Reliability / Spirit of Innovation /
Balance between Perfectionism and Efficiency /
Communication with non-Tech People / Polite and Respectful

INTERESTS

Communities

Open-Source / Vue Land / Rust / Qwik / Tailwind CSS /
Freelancing / CCC e. V.

Engineering

Artificial Intelligence / Large-Language Models / Engineering
/ Web 3.0 / Accessibility / Distributed Systems / Blockchain /
Cryptocurrencies / Internet of Things / Cloud Computing /
Algorithms / Embedded Systems

Business

Marketing / Innovation / Industry 4.0 / Automation / Security /
Social Networks / Social Engineering / Privacy / Freelancing /
Start-Ups / Entrepreneurship / MVPs / Rapid Prototyping /
Monkey Testing
